

Collage: A picture or design created by gluing items down on a surface by layering and overlapping.

You can use:

- different papers, newspaper clippings, ribbons, bits of coloured or hand made papers, portions of other art work and photographs,

These materials can be cut, torn, scrunched and ripped to make the picture.

Collage was first used at the time of the invention of paper in China around 200 BC.

It is over 2000 years old.
