Vocabulary

Robots are programmed by humans to complete certain tasks.

In this unit we will be looking at floor robots known as Bee bots.

We can move the Bee bot in different directions - forwards, backwards and sideways.

Routes means taking different directions to get from one location to another.

Robot - Usually machines programmed by humans.

Forwards - 

Backwards - 

Sideways - 

Instructions - A direction or an order.

Directions - Tell you how far to go similar to instructions.

Route - how to travel from one place to another.
