Vocabulary

Technology is something created to help other people.

Typing involves writing words and numbers on a screen.

Using a mouse involves moving a cursor around a computer screen.

When writing on a computer, this is called typing.

It is always important to save your work when working on a computer.

Like in school, when using computers there are rules to follow so we can stay safe.

Technology - Something created to help other people.

Typing - Writing on a computer.

Mouse - Handheld device that controls a cursor on a computer.

Keyboard - Device used on computers that has a number of buttons known as keys with letters, numbers and symbols on.
